STAT

Dear Tim,

I wish to extend my appreciation and that of the Monitoring Operations Division staff for your important contribution to our TV operations during your summer assignment with FBIS. Your efforts in providing the TV Center and FBIS field bureaus with a continuous supply of videotapes were critical to our task of monitoring foreign television. We especially appreciate your initiative and creativity in setting up a videotape logging system to track videotapes as they are shipped to and from FBIS.

We hope that you have found this assignment to be constructive and rewarding, and that you will return to the Monitoring Operations Division during your Christmas vacation.

Please accept our best wishes for a successful and enjoyable school year.

Sincerely,

STAT

Deputy Director
